Answer the question

Give NUMBER of details the
question asks

African American and Hispanic children, kids, drown at 3x the rate of the national average because 60 percent can't swim at all.

This is the TA. We have turned the question into a statement and answer.

Here is the G part of TAG, Give details using text.

Not only can't they swim, also, those children are less likely to have parent or grandparents who can swim. Secondly, they don't have access to a pool. Lastly, they do not feel comfortable in the water.
